

A Busy Day

by
Terry Bell

Every morning Mrs Money gets up very early. She gets up early because she always has a lot of things to do in the house. She works in the house from morning till night. She enjoys doing housework.

She likes to get up early and plan what she's going to do each day. She thinks about all the things that need doing.

‘First of all I’m going to sweep the floor in every room,’ she thinks. ‘The floors are very dusty and they need sweeping. I’m going to sweep the floors with my broom.’

‘After that I’m going to wash the dishes in the kitchen. There are lots of plates and cutlery which need washing.’

‘Then I’m going to prepare lunch. We’re going to have chicken for lunch today. I’m going to cook the chicken in the oven. We’re going to eat lots of delicious vegetables with the chicken.’

‘After lunch, I’m going to work in the garden. I’m going to water the flowers because it’s been very hot this week. It’s going to rain this weekend, but the flowers need watering today. I’m also going to pull out some weeds.’

'Next, I'm going to dust the furniture. There's a lot of dust because it hasn't rained for a few days so the chairs and tables need dusting. I'm going to use the feather duster.'

'After that, I'm going to watch television for a while. I'm going to watch my favourite serial at eight o'clock this evening.'

‘After such a long day, I’m going to be tired. So I’m going to go to bed at nine o’clock. I’m going to sleep very well tonight!’
